

Some scary germs called Coronavirus or Covid-19 are making people sick.

To keep people safe, the Prime Minister wants us to stay home. This is called a "quarantine."

School is closed. I have to stay home.

No one is at school right now. My friends and teachers have to stay home, too. They miss me very much.

Places like restaurants, movie theaters, bowling alleys and playgrounds are closed, too.

To stay safe, I need to stay away from others in my neighbourhood. This is called "social distancing."

I will wash my hand many times a day. I will count to 20 while I wash to make sure I get all the germs. I will make sure I am not touching my face.

When someone gets Coronavirus they have a fever and a cough. Not everyone with a cough has Coronavirus.

Some people may wear a face mask. It's okay, I'm not scared. Masks help me stay safe from germs.

It might take awhile, but everything will be Okay!
