

# *Wearing a Mask*

A COVID-19 Social Narrative

I see a lot of people wearing masks.

The background of the slide is a light green color with several green, spherical virus particles scattered across it. Each virus particle has a textured surface and several short, dark protrusions extending from it, resembling a coronavirus. The viruses are of various sizes and are positioned at different angles, some appearing to be in motion.

When there is a virus,  
people wear masks for two reasons:

- 1) So they don't breath IN germs that could make them sick
- 2) So they don't breath OUT germs that could make other people sick

Wearing a mask protects everyone!

Doctors say it is a good idea to wear a mask  
when we go outside right now.

My parents ask me to wear a mask when we have to go outside. They want me to be safe.

If we have to go to the store then I can wear a mask at the store.

A mask only works to keep me safe  
if I leave it on while I am outside.

I don't take it off until I am home again.

I know a mask is working  
if it covers my mouth **and** my nose.

An adult can help me to put my mask on the right way.

When I wear a mask outside  
I am helping the world stop the virus!

# HAVE WE MET?

**Hola Chica! Krystie, Meg and Vanessa here!**

We're the whacky team of pros behind AdaptEd. Together we are a little Type A, a lotta bit procrastination, part "by the book", versed in "off the cuff", research nerds, and "gut feeling" supporters. So you get the picture... Dancing to the beat of a different drum is kinda our thaaaang, mmm'kay? 😄😁👉

What unifies us is a passion for (and a few degrees in) special education. We've got our main squeeze, Krystie: new mama, tech wizard, and CEO extraordinaire! Not to mention SPED teacher and AT Specialist ☺

Next up is the lovely Vanessa: OT to the stars! (Ok, WE think our students are total rockstars 😊★). Watch out- she's not afraid to do yoga in heels people! 🧘👠

Rounding out the team is Meg, our SLP (with a few CCC's thrown in for good measure 🤪). She's sporting a pretty sweet vocabulary and a wicked ability to find the funny in EVERYTHING.

We couldn't be more different from each other than brussel sprouts and pie (Oh my god- did someone say PIE?!?!?), but we humbly think that's just what makes us jive.

We kinda love working together (like 90% of the time 😊😁) because we know that our multiple perspectives help us to get the job done right. At least by the third try... you know special ed ain't no joke people!

We'd love to hangout with YOU! What new side do you bring to the team?!?!? :stuck\_out\_tongue\_winking\_eye:
